

SÃO PAULO HEALTH SECRETARIAT

[English Version](#)

Netherlands Economic Mission to Brazil

In a meeting held on 18 May 2017 and conducted by the Coordination of Science, Technology and Strategic Health Supplies (CCTIES), in the presence of its coordinator, **Dr. Sergio Swain Müller**, managers of the State Secretariat of Health of São Paulo received

members of the Dutch delegation, represented by **Dr. Cor van Honk**, Consul General of the Kingdom of the Netherlands in São Paulo, **Dr. Nico Schiettekatte**, Counselor for Innovation, Technology and Science and **Dr. Bas van den Dungen**, Deputy Minister of Health, among others Authorities.

After the welcome from the Assistant Secretary of SES/SP, **Dr. Eduardo Ribeiro Adriano** and the Deputy Minister of Health, Welfare and Sport of the Netherlands, **Dr. Bas van den Dungen**, the meeting began with the presentation of the Dutch Committee Represented by **Dr. Len de Jong**.

Dr. Sergio Swain Müller, coordinator of CCTIES at SES/SP, made a presentation highlighting the history of health in Brazil and the Unified Health System, demonstrating actions, indicators, programs and services developed within the institution.

One of the main objectives of this meeting was the possibility of fostering strategic relations between institutions in the Netherlands and São Paulo in terms of innovation, research and entrepreneurship. It was also an opportunity to exchange experiences and possible partnerships in science, technology and innovation among professionals from both countries.

Dra. Sueli Gonzalez Saes, CCTIES adviser, gave a presentation demonstrating the mission, main activities and characteristics of each SES/SP Research Institutes, which were represented at the meeting by its leaders.

We also counted with the presence of **Dr. Arnaldo da Silva Júnior**, one of the consultants of the implementation project of the Technological Innovation Nucleus in SES/SP, representing the FIA/FEA/USP, which reported the main actions that have been developed to strengthen of innovation in research institutes.

The meeting promoted opportunities for interaction between the Dutch delegation and SES/SP professionals and clarification of any doubts, as well as the possibility of detailing specific health information and the presentation of the structure and composition of the institution.

It was a meeting marked by important contacts, exchange of experiences and promotion of health actions in the State of São Paulo. This initiative is extremely relevant for the establishment of international partnerships.

The presentations of the event are available in the **VHL Information and Knowledge Network**, <http://ses.sp.bvs.br>, from the State Department of Health of São Paulo, in the item **International Initiatives**, by the link <http://ses.sp.bvs.br/vhl/holland/> .
