

# Welcome to the world of Metaflex Doors

OPEN TO THE WORLD

CLOSE TO YOU

# Metaflex Doors Europe

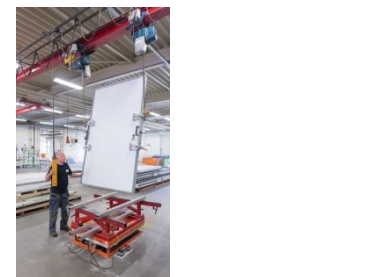

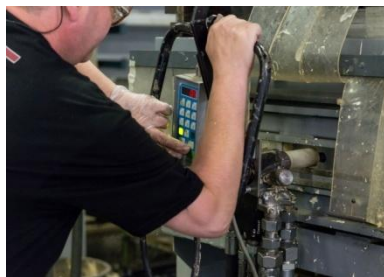

# How we work:

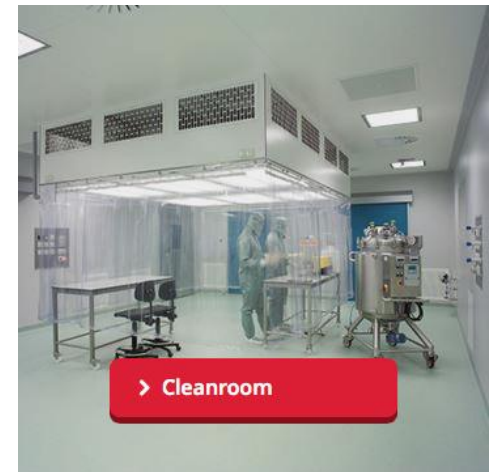

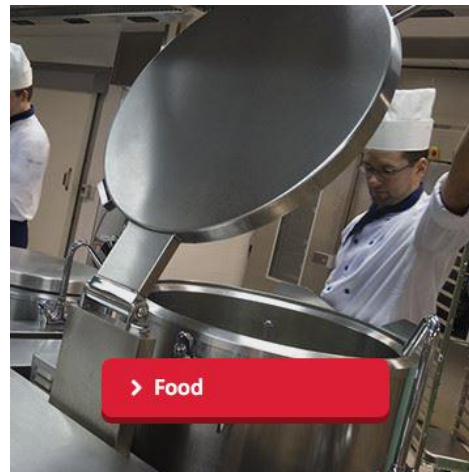

*With the ultimate result: Doors that connect,  
as the world's best, to your situation, needs and goals.*

# With total ownership of development & production...

...we have over 40 years of experience  
in the following sectors:

# A closer look on Healthcare:

The world is changing rapidly. Our world is changing too.

Patient safety and reducing incidents are major goals in the operating theatre. Our response on that is by optimizing the performance of our hospital doors on:

- ✓ Hygiene
- ✓ Safety
- ✓ Ease of use
- ✓ Energy consumption

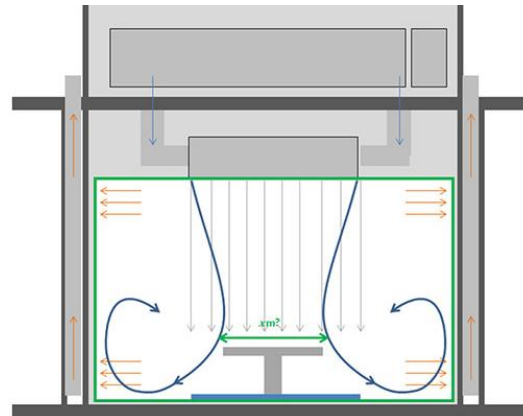

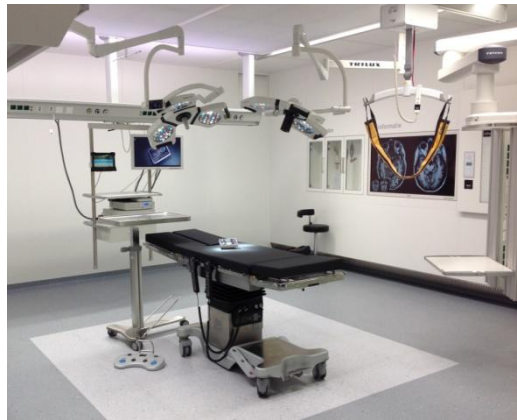

## With that in mind, we developed the following innovations:

- ✓ Reduction of postoperative wound infections (POWI's):  
*Metaflex Medicare*
- ✓ Reduce incidents: *Metaflex Intelligence*
- ✓ Increase patient & staff safety: *Metaflex Medicare EI1*

# Reduction of POWI's: Metaflex Medicare

The hermetically sealing system of Metaflex is 100% air-tight, even with high over- or under pressure up to 100 Pascal without leakage loss (ANSI/UL1784:1997).

**PEUTZ**

Postoperative wound infections can lead to a longer recovery period, disability or even death. To reduce the amount of POWI's the air in the OT must be controlled at all times. The Metaflex seal is proven to be the most effective hermetically sealed sliding door concept worldwide.

# Reduce incidents: Metaflex Intelligence

*'Human beings make mistakes. Because the systems, tasks and processes they work in are poorly designed.'* (PROF. Lucian Leape, Harvard School of Public Health)

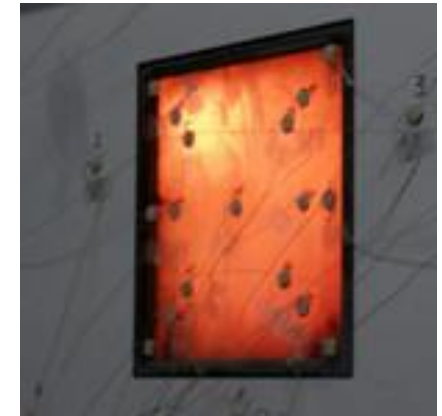

Metaflex Intelligence visualizes important parameters which influence patient and staff safety, like 'MRSA contamination' and 'radiation'. The clear and direct warning creates awareness and stimulates safe and uniform protocols.

[Watch our video about the Intelligence \(NL\) on Youtube >>](#)

# Increase safety: Medicare EI1 30 or 60 min.

Besides hermetical doors, we are specialized in fire-resistant, smoke-tight and radiation-proof doors with or without automation.

Like the Medicare EI1: The first hermetically-sealing sliding door system that meets all the fire safety requirements stipulated by the EN 1634-1 standard.

# Product portfolio:

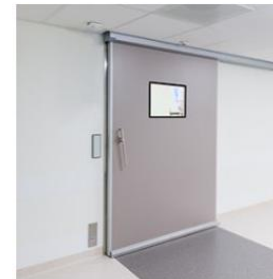

Metaflex Medicare

Metaflex Intelligence

Metaflex Glass

Metaflex Medicare E11

Metaflex Metaficient

Metaflex Pollux Chiller

Metaflex MAK Chiller

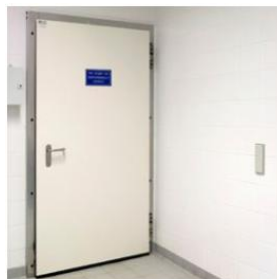

Metaflex Polaris Chiller

Metaflex Polaris Freezer

Metaflex Orion Shock Freezer

Metaflex BDM

Metaflex KDM Chiller

Metaflex VDM Freezer

# Used in, for example: Erasmus MC Rotterdam (NL)

# UMC SEH Utrecht (NL)

Operating Theatre | Emergency Rooms | Patient rooms

# Eyevision (NL)

Ultimate transparency

# Kulakov Hospital Moskou (Russia)

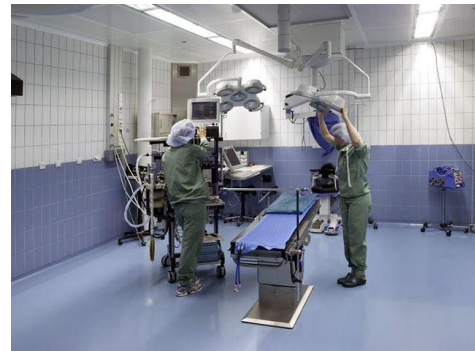

Russia's leading hospital in the field of obstetrics, gynecology and neonatology.

# Specially designed: Veterinary Medicine

Specially designed solutions for animal care

# In progress: Kirkenes Hospital (Norway)

# And many more...

# At your service:

**William Boxem**  
Area Manager DACH

**Alla Dolinskaja**  
Area Manager Central & Eastern Europe

**Saskia Spitholt**  
Internal Sales
